CONTRACT FURNITURE INC.

WHY SPECIFY JAJ CONTRACT FURNITURE?

1. BUILT FOR HEAVY COMMERCIAL USE

- JAJ builds banquettes to withstand punishing use: Offices, Hospitals, Hotels, Restaurants, Clubs. Public Spaces, **not** private ones.

2. CUSTOM MADE

- We make banquettes to your specifications. Every section is carefully crafted for your order, not pulled off the shelf. You get the features you want, where you want them. Seat joints are between tables, not where manufacturer's pre-fabricated section ends.

3. GUARANTEED FIT

- JAJ builds to your unique conditions. We take measurements, do shop drawings, layout full size from templates, and take complete responsibility for the successful installation of the job. And we guarantee it!

4. SOLID HARDWOOD FRAMES

- One piece back supports from top to floor so they remain absolutely rigid during years of constant, extreme use. Solid Hardwood frames, triple doweled for added strength-not plywood or pine which tends to loosen or crack when subjected to commercial use.

5. EASE OF MAINTENANCE

- Our seats can be removed easily (and locked-in) for cleaning. No tools required, and there is no loose shifting of cushions or Velcro tabs. And many years from now, seats, the high wear component, can be easily reupholstered independent of the backs.

6. AESTHETIC APPEAL

- Our seats can be removed easily (and locked-in) for cleaning. No tools required, and there is no loose shifting of cushions or Velcro tabs. And many years from now, seats, the high wear component, can be easily reupholstered independent of the backs.

7. COMPLETE SERVICE

- From floor plan to installation, the people at JAJ provide the technical expertise found only in a company with 50 years experience building nothing but contract furniture.
